In January 2020

I will open Manasses House West at Black Creek, Churchville, New York which is a respite center for parents and caregivers of seriously ill children. A small staff of professionally trained volunteers will assist with open center hours, and lite inn and housekeeping skills. The services are provided by appointment only and or reservation. The purpose is so parents or caregivers can rest and relax post diagnosis, seek peace or comfort. There is no cost for our services.

In Fall, Spring and Summer

We offer tea and lite refreshments in the contemplation garden and or in the small carriage house.

We offer Art classes at no cost, Journaling, Guided Meditation and Fiber Arts. Most of our programs are offered on site at Manasses House.

In Winter

We have several programs off site at various Brighton, Chili and College Town Locations.

Outreach services include:

Hospital visits

Non-denominational and spiritual care

Referral for extensive case management services

All of our services are of no cost
